<ul style="list-style-type: none"> - fun - help you learn - interesting - different character - doing different things 	<ul style="list-style-type: none"> - How do they make them? - How do they make them look fun? - How do the games make you learn? - do they have instructions. 	<ul style="list-style-type: none"> - I have learned that there are many cool games they are very fun.

Magic Numbers
This game is about you have to think of a number and the computer has to guess what it is.

Tyler Race
This game is ~~talking~~ about you have to answer a math question and you get to move 1 step.

Math Squid
You have to add and subtract the questions ~~to~~ they give you and when you get 13 points you win.

ACCOMPLISH

I want to add some music
and it is going to be a time
a lesson game when I get
an answer right the person dances
and sings, and you get to
tell it what to sing and dance.
